

TESTIMONIAL BY CORINNE HUET

Friend of Elena Danaan and official translator of Star Nation News

Ah, the *Rencontres Galactiques 2!* The Valsoyo estate, memories engraved. I was lucky enough to be invited on the Monday evening, July 8, 2024, to meet the disclosure team and the team of volunteers (including my translation team). The warmest welcome was from Elena Danaan, to thank me for the French dubbing work and the fact that we could meet in person. David also came up to me to say hello when I arrived and the next day.

Later, wanting to go out and enjoy the summer temperatures, we were chatting with my friends outside, and we had our heads turned towards the sky, because they had told me about a ballet of about thirty scout ships the day before. We started pointing our phones at the sky when we heard Elena Danaan behind us, coming out of the room and pointing to the sky right in front of her and saying, "Look, they're straight ahead!" As we turned around, we saw a moving luminous shape that looked like neither a star, a satellite nor the ISS (International Space Station)! And it was certainly not a plane, helicopter or drone! I have been observing the stars and the sky since 1991, I know how to recognize something terrestrial from a shooting star!

Elena adds, "Thor Han just gave me the information!" We were amazed as we filmed and took photos (thanks to night mode) of these ships that really showed themselves to us: very bright, without noise.

At the second session, Elena mentioned, at the end of the presentation of Nikola Tesla, on July 10, 2024, by the pond, that Thor Han had predicted a ballet of ships in the sky and it happened! To see all the people who had stayed in the green space near the conference hall looking for a luminous movement, communicating with joy at having seen one or more and hearing everyone getting excited and filming, was very emotional! Thank you not only for confirming the presence of spaceships, UFOs, but above all for confirming contact with beings who, this time, are benevolent towards humanity and from whom we have nothing to fear but everything to gain by understanding them and their technologies.

How could she have known what we were doing and the exact location of the spaceships' appearance, if not by having the information directly? This proves that Elena Danaan is in communication with her contact and twin flame Thor Han Eredyon and, moreover, with the Galactic Federation of Worlds, the E.T. military organization in which he works.

I discovered Elena Danaan in 2023, and JC and Melanie in 2022. I had been very impressed by JC's experience, who had his full abilities until he was a young adult, then Melanie and her memories of another humanoid extraterrestrial appearance, and of hybrid children she had met. The galactic encounters in Tours in 2023 were advertised on YouTube, I feel inside that it vibrates strongly to go!

Luckily, I listened to my inner guidance because the next day there were no more places available. It took me back to my childhood and my observations of the sky, my conviction that we are not alone in the galaxy. The fact that abductees and contactees confirmed this in public, recounting their experiences with evidence, confirmed my feelings about the existence of other exogenous beings and that something was going to happen worldwide. It was disclosure, to prepare us for contact!

Seeing the three French-speaking people I had followed in each interview in the flesh was moving. But everything had already been said in the interviews. No new information about their memories, details, or about the progress of our liberation from the Deep State. But when I saw Elena Danaan arrive on stage to tell her story, the story of humanity, her memories of her origins, including Altea, her illustration of the planet that touched and moved me (as if I knew that these landscapes and vegetation existed), and heard Robert L confirm the frequency of Elena Danaan and her words, I was captivated. What's more, the flowchart showing all the negative extraterrestrial organizations that had allied themselves with dark humans, then showing benevolent ones, dated facts ... corroborated by archives and the exopolitical work of Dr. Salla, I was blown away. It was very enriching!

On the last day of the conferences, she received messages live: from Thor Han, who had made me burst into tears of relief, from his frequency (his voice) through Elena, and from EA, with hands joined in uncontrollable gratitude, then Elena who told us at the end of the conferences “it's up to you to spread the messages!”

Waking up the day after this very enriching weekend, both in human terms and in terms of information, I was startled by the name “ELENA”, received as a clairaudience. And when I have this kind of clairaudient manifestation, it means I need to pay attention to it. So I took the time to get to know her, through her books, then her videos, and I took the plunge and followed a webinar in October 2023. A good way to get back into English! And I saw who she was, and not what people were painting her as, including a whistleblower who, mocking the directed energy weapon that destroyed habitats on the island of Lahaina, Hawaii, mocked Thor Han Eredyon's response via Elena, that the actions of the Deep State can escape the vigilance of the Galactic Federation of Worlds (when a short time before, he had told me that it was magnificent)... it broke my heart and made me turn to her.

Yes, the frequency of pronunciation “ELENA” in clairaudience said “I'm here, it's important, it's the key” (in my personal understanding and beyond). And for other reasons that I understood about my closeness to and commitment to the Galactic Federation of Worlds, which Elena confirmed to me following a visit from a Pleiadian officer in February 2024. Our loved ones continue their life journey up there...

You know what happened next! I felt strongly called upon to be the French-language intermediary for the information of Elena Danaan, emissary of the Galactic Federation of Worlds, so that the truth would not be hindered by the language barrier. And in support of Elena, who was being strongly attacked and scorned, as well as the Galactic Federation of Worlds.

And then comes that week of October 14, 2024.... A post on Facebook from the wall of shame by Kevin Luengo in which my comments appear.... Which were just a question of his change of tone towards disclosure and Elena Danaan. He says of us that we are “his soldiers” and that it is a cult. I was stunned! The shock! I will be part of a sect for him and in the eyes of everyone! The tone of the post, the mockery, the condemnation, the humiliation, everything reminds me of the harassment I suffered as a schoolgirl. I talk about it to my children, who are made aware of it in their schools, I explain to them what is happening, the post, the fact of exposing my name in the form of screenshots. They confirm that it is cyberbullying. To stop it, it must be blocked and reported. Things I did to protect myself.

Elena had warned me when we first got in touch to hang on to her and support her. Indeed! I realized how much she has been through in the last five years. In addition to her childhood, her abduction and the psychological trauma and physical after-effects (she couldn't have children because of the scars, after all! And they drilled holes in her head!) What a lack of empathy when it's not you who is affected! How did it get to this point?

And I was surprised at the silence of his friends... who only responded (one of the two) a few days later that what had happened in Denver was a flyover of ships... but also of birds... When you see your buddy attacking a colleague from the disclosure, that you also went on a ship belonging to the Galactic Federation of Worlds, and therefore potentially crossed paths with Thor Han Eredyon, who is a superior, he is told, even publicly, that he is going too far! That is his point of view, of course, but that he does not support it because he was there.

No.

Nothing.

It was expected.

Then people confided in me about the creation of this guy's telegram group and kept an eye on what was being said: they were shocked because the same allegations are mentioned. Even more so with the interview aired in early December 2024 with Elena and me. She's been attacked. And Dani Henderson, who has been organizing conferences in the USA since 2022. After Barbara's article, I understood why she too... and my trust was broken.

Remember that cyberbullying is a crime punishable by law.

Finally, David's January 2025 article about a person in the disclosure sphere. If she is still a speaker, he is withdrawing. A big disappointment, one more person who uses the term high treason. While his guide is normally part of the Galactic Federation of Worlds. So, he works with this military organization.

This observation is not made lightly; it is the accumulation of reflections and hindsight from all the whistleblowers who expose themselves publicly: the testimonies of the abductees and contactees are detailed and precise. With non-verbal behaviors that cannot be calculated, they are genuine and do not deceive about the real experience. And normally, after having experienced conflicts, on the same ships, they should work together for the same goal, for humanity, with compassion, dignity, tolerance and respect.

Not to end up with these hidden attacks, these lies (which are ultimately self-deception) and these divisions. The ego serves the heart, works for the greater good. Not the other way around.

This is our moment in history, one that we have deserved for millennia. We have neither the desire nor the need for heroism, but more than ever the need for humility and for everyone to act from the heart. For the peace of all, in everything and everywhere.

Corinne HUET - March 9, 2025
